

Jewers Doors Secures Northwick Park Golf Club Driving Range

Jewers Doors were approached by Charles Mador Chartered Architects to design and supply a series of doors to secure the five teaching bays on the two-tier 60-bay driving range at Northwick Park Golf Club and Clubhouse

SUMMARY

Overview

Industry: Golf courses
Solution: Swift fast-acting, bi-folding doors

Benefits

- Fully secure when closed
- Smooth operation for easy manual opening/closing
- Flush with side walls when open to maximise available space
- Recessed handles and boxed-in tracks prevent ricochets from stray golf balls

About Jewers Doors Ltd

Jewers Doors is a world-leader in the design, manufacture, installation and repair of industrial doors across all industrial sectors.

Jewers Doors have been installed not only in the UK, but also throughout the world including Europe, Middle and Far East and New Zealand.

The Challenge

The doors had to be robust so the 3.7m wide x 4.0m high openings would be totally secure during the night, but they needed to be able to be opened quickly and easily to allow golfers to use the bays to hit balls out onto the driving range during the day. The doors had not only to be solid enough to resist impact but also designed to prevent dangerous ricochets from shanked golf balls.

Space Saving

The low headroom available on site precluded the use of vertical roller shutters, so Swift bi-folding doors were the ideal solution. When fully open, the Swift doors stacked flush to the sides, minimising intrusion into the teaching bay. This ensured golfers had plenty of room to swing golf clubs fully when hitting balls.

Additional Benefits

Manufactured from high-density flat composite panels, with a hardwearing plastic coated finish, the doors incorporated recessed handles and 'boxed-in' top tracks to further reduce ricochets from stray golf balls.

Do you need a full inspection report on an old or failing door or a professional company to survey openings and quote a price for new doors?

Jewers Doors are a DHF accredited company and operate under strict guidelines to advise on the best and safest solution for each application and provide an expert service that is second to none.
